Re: Chief Mate Karynn Marchal

Ms. Karynn Marchal served aboard the RORO M/V GREEN LAKE, as Chief Mate under my command for that past year. She is new to the Chief Mate position and jumped right in handled the responsibility well. She has proven herself to be a dedicated and hard worker.

Her duties as Chief Mate include stability, safety, procurement, navigation, cargo handing/stowage, inspections, and crew management. All of which she handles very well. Just recently she managed a forty five day shipyard period. During this period, she managed ships labor, and oversaw all contractors to ensure the ship achieved all items in shipyard spec. She was also directly involved with class and USCG. In these cases, she worked well with them and ensured all their concerns and work list items were carried out with priority. This shipyard period the vessel also had a new Ballast water treatment system installed, which proved to be most challenging. She spent many days and nights studying the manual and figured out how to operate it properly.

Ms. Marchal takes great pride and ownership in her dedication to her position. She sets a goal and works towards it until completed. Please look favorably in her endeavors, as I'm sure she will exceed any expectations. I hope to see her relieve me as Master one day.

Best regards,

Brandon Lynch

Master

MV GREEN LAKE
